DOI 10.15252/emmm.201470070

The authors of the above research article mistakenly inserted the cell cycle plots of the repeated analysis of C4-2 cells (under treatment with MT 63-78 or vehicle) instead of those of C4-2B cells in Fig 5A. This mistake does not affect the results and conclusions of the paper in any way. The new Fig 5A on the right replaces panel A of the original figure. The authors apologise for any inconvenience caused.
